Prof. P.M.S. Blackett,  
Birkbeck College, London.

Dear Professor Blackett,

we are trying to keep evidence of the further progress of those of our former students who have gone abroad. In this connection I should be obliged to you if you were so kind to let me know your opinion of the ability and the progress of Dr. Furtmüller who is working in your laboratory. Do you think it possible that he may find an appointment in one of the Anglo-Saxon countries?

Thanking you for your answer

I am Yours faithfully

Prof. Hans Thirring.

Birkbeck College (Univ. of London)

E.C.4, Holborn 5555.

11 May 1936.

Dear Professor Thirring,

I think Dr. Furtmüller is making good progress with his research. The subject and technique were of course quite ~~new~~ new to him so that I did not attempt to get him on to a problem of his ~~own~~ own at first. Now he is working alone and is making excellent progress.

I am very glad to have him in my laboratory and like him very much. I fear, ~~however~~ however, that the chance of his getting a post in this country is rather small.

Yours sincerely

P.M.S. Blackett.
