Professor Hans Thirring  
Henry Hudson Hotel  
57th and 9th Avenue  
New York, New York

Dear Professor Thirring:

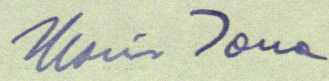

Before you leave again for Vienna I would like to thank you again for your stopping at Denver in your travels and to tell you how happy I was to have an opportunity to meet you again after so many years.

I have heard many appreciative comments about your lecture and I am sure everybody enjoyed it very much. And we hope that you enjoyed your stay here, even though the weather was not at its best.

I mentioned to Gene Lindberg of the Denver Post your question about writing an article for the newspaper, and he felt that there might be some interest on the part of the Sunday section ("Roundup") editor, Mr. Robert Lucas, especially if it contained some discussion of the European aspects of the problem. I believe he had in mind an article on the energy problems--either solar or nuclear. He felt it would be preferable to establish contact with Mr. Lucas directly rather than through him.

I hope that your trip home will be a little rest period after the busy days in the States.

Sincerely yours,

Mario Iona
