Dear Professor Thirring:

Thank you very much for your letter of September 29. I am delighted to know that you are willing to write an article for us and I shall look forward to receiving your article by December 11. I have for long been an admirer of your work, and would be very glad if we could include a piece by you in Confluence.

I myself will be away from Harvard for a great deal of time in the next few weeks, but I will try to get in touch with Mr. Frank to see if I can help arrange the lecture you proposed in your letter.

Sincerely yours,

Henry A. Kissinger
