More Information

Q&A

What is damap? | Team

- Collaboration between
 - TU Wien
 - TU Graz
- Mix of Software Engineers and RDM experts
- Under umbrella project FAIR Data Austria
- Open source

Clara Schuster

Zeno Casellato

Petra Freygner

Christiane Stork

Tomasz Miksa

Ilire Hasani-Mavriqi

David Eckhard

Laura Thaci

What is damap? | Data Management Plan

DMP

- Is a formal document
- Outlines what you will do with your data during and after you complete your research
- Ensures your data is safe for the present and future

DMP helps with

- Planning the research process
- Managing your data in accordance with the FAIR Principles
- Defining rights and responsibilities in a research project

What is damap? | DMP creation

Guidance

DAMAP guides you step by step through the different sections of a DMP following the [Practical Guide to the International Alignment of Research Data Management](#)

Export

DAMAP exports a pre-filled DMP as a Word document that you can customize and use for submission to funders

Automation

DAMAP saves you work by:

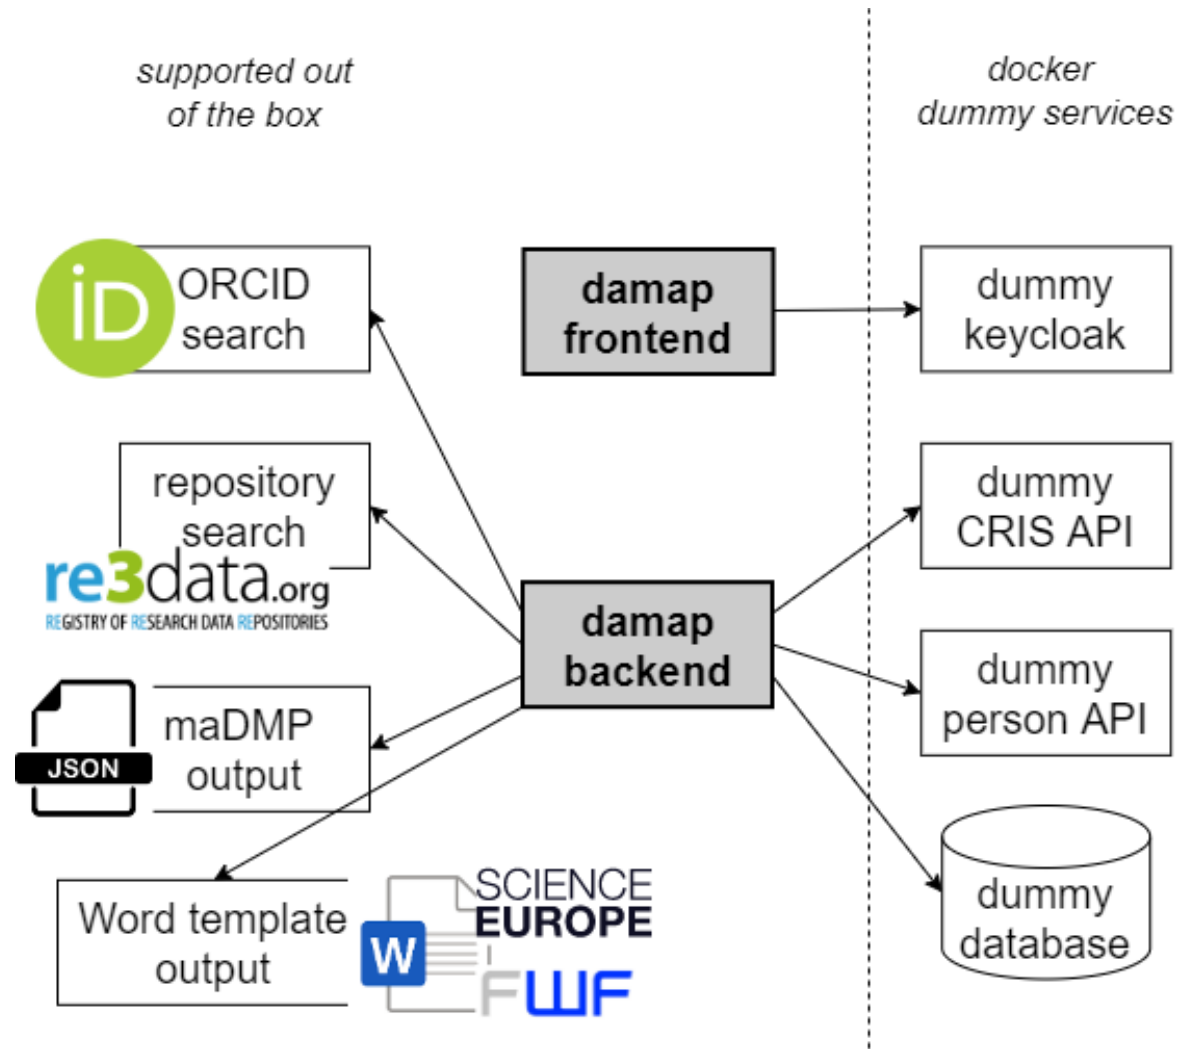

- pre-filling content with detailed information from your CRIS application and other systems
- providing wizards, guidance, and item lists to choose from
- suggesting answers that you can either comply with or adjust to your needs

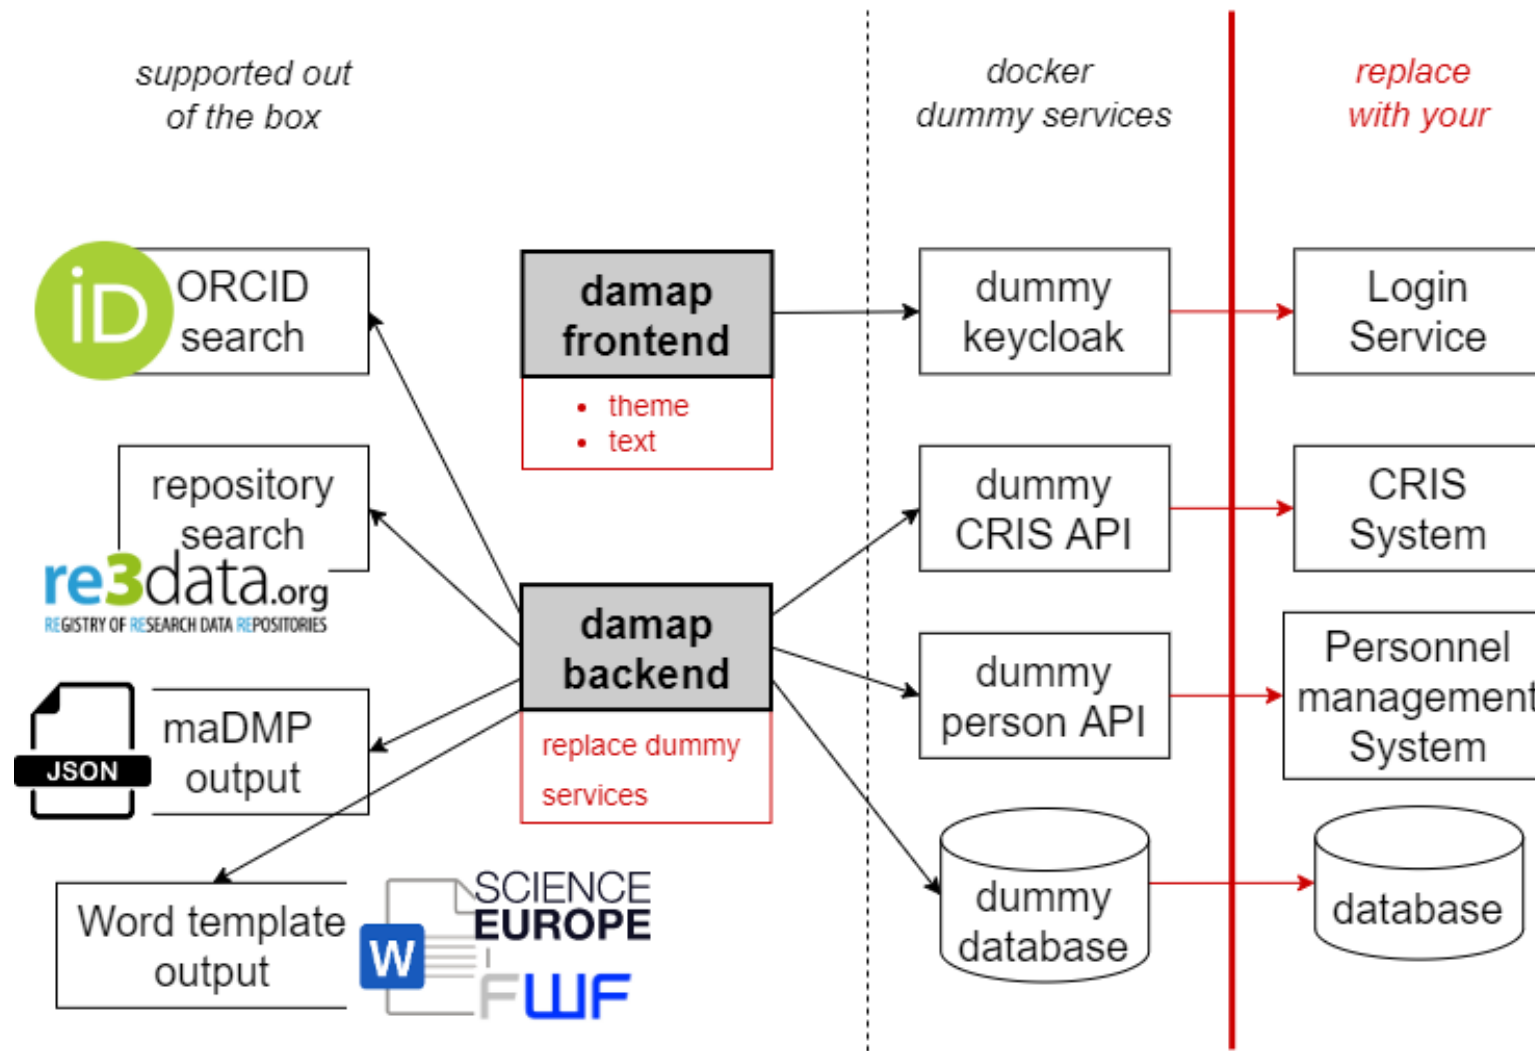

Compatibility

DAMAP is compatible with the [RDA recommendation on machine actionable DMPs](#)

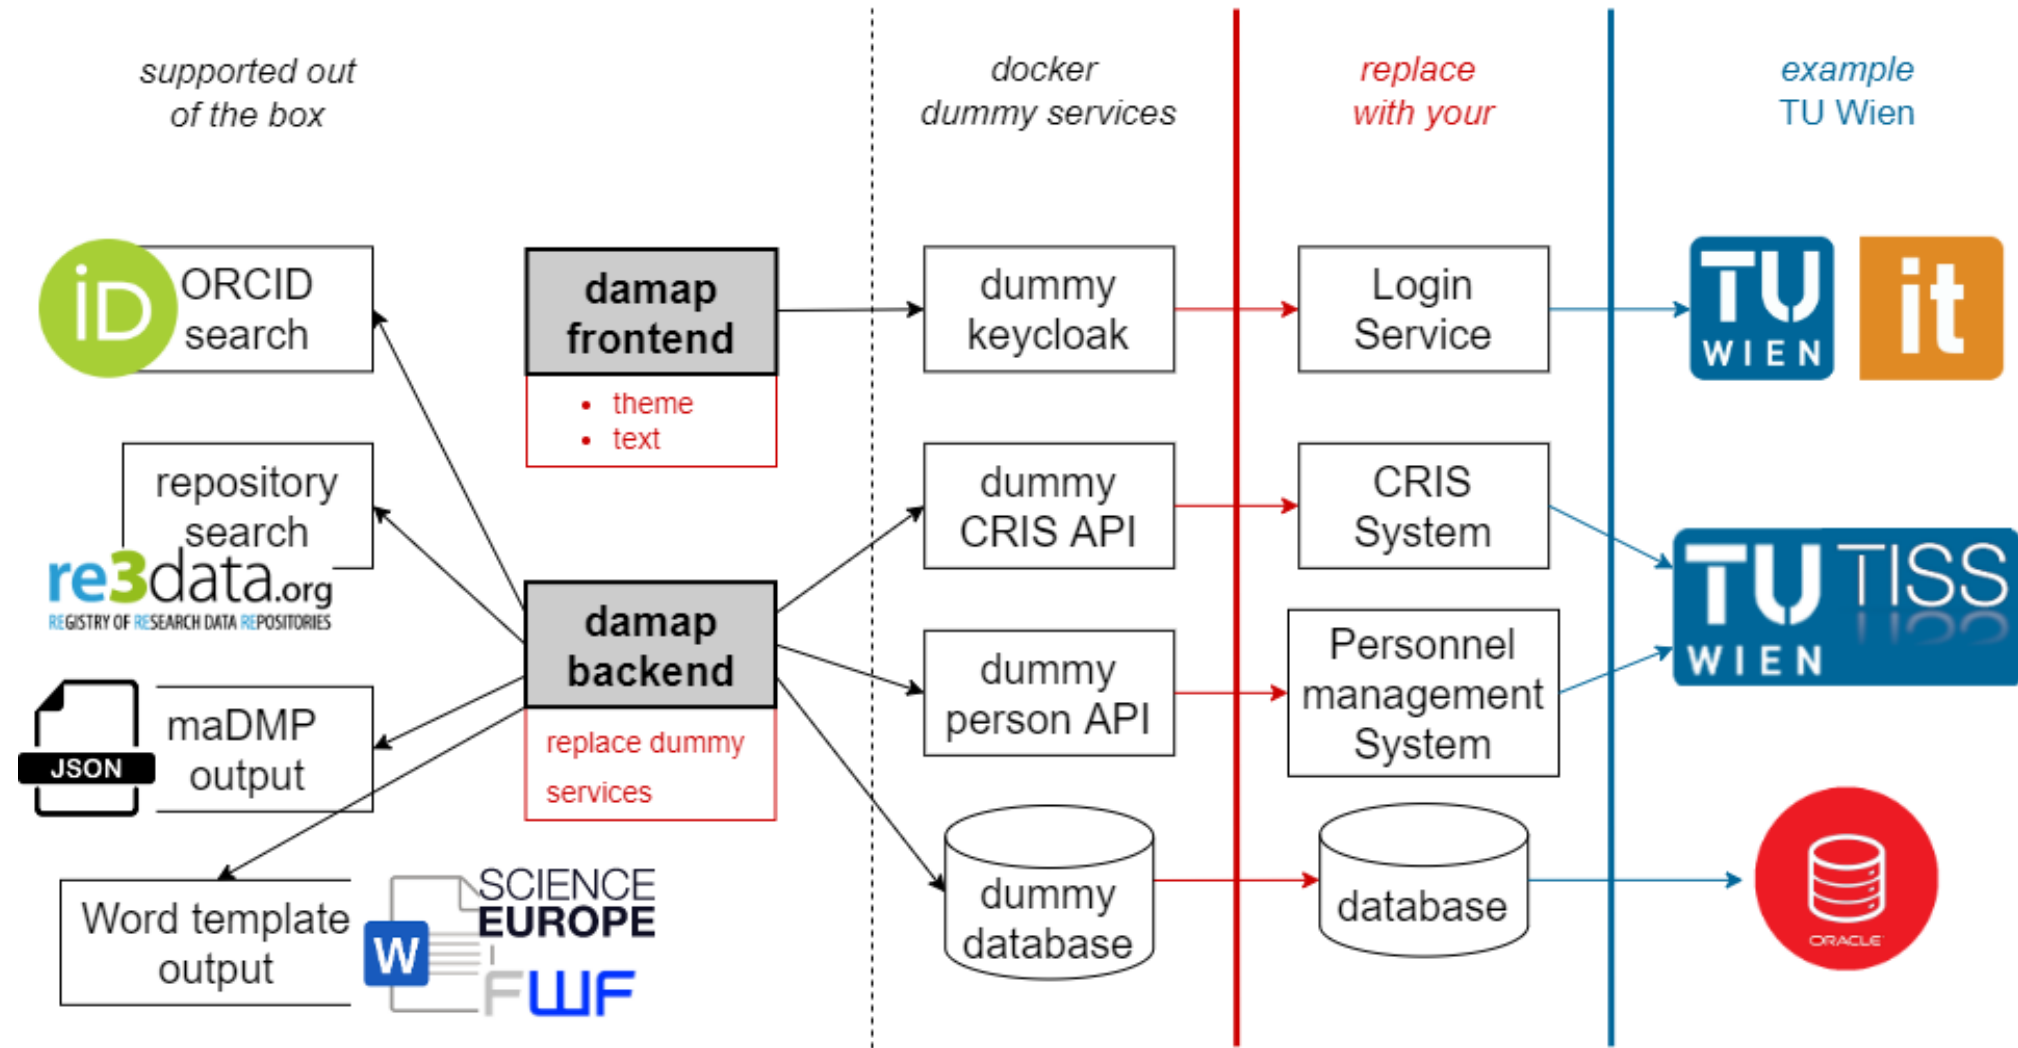

Integrating damap | Deploying the TU Wien DMP Tool

Demo

Live demo of TU Wien DMP Tool

Where to next..

TU Wien DMP Tool

- Part of the research infrastructure
- Bugfixes
- Gathering Feedback

damap open source

- Incorporating feedback
- Adding features
- Adding funder templates for export

More Information

- More Information on www.damap.org
- Check out the code on GitHub <https://github.com/tuwien-csd/damap-backend>
- Or contact the Center for Research Data Management at TUW
 - www.tuwien.at/researchdata
 - research.data@tuwien.ac.at
